Book of the Day: *A First Book of Bridge Problems* and *A Second Book of Bridge Problems* by Patrick O’Conner

Interest Level: Beginner to near-beginner

These books have both won the American Bridge Teachers’ Association Book of the Year award, the first in 2012 and the second just a few weeks ago in Las Vegas. Barbara Seagram has told me that the first book inspired her to write her first quiz book targeting newer players.

Book 1 starts out at a very beginning level, illustrating basic techniques in counting and developing tricks. It then proceeds through various finessing positions. Basic odds are covered, such as how to handle AKQxx opposite xx with no side entries.

Book 2 picks up at about the point that Book 1 leaves off, then gets into basic elimination plays, entry management and other techniques.

The author does a very good job of focusing on planning the play from trick one. The format encourages the reader to think through the play before flipping the page to see the answers. He emphasizes one “Key Point” for each problem, helping the reader to understand and remember each issue.

While targeting lower-level players, even advancing beginners who need to brush up on basic techniques will benefit from the clear explanations and the methodical approach presented. And of course, bridge problems are fun, and it’s great for newer players to get started with them early on.

Side Games
