

## STEVE TUBBS

Steve Tubbs was a good friend and long term member of our bridge community. He journeyed over the rainbow bridge at 2:15 am on the morning of Thursday, March 18, 2021. He was 74. His passing was very peaceful and he was surrounded by his wife Linda with daughter Corianne, her husband Justin, and grandchildren Marli and Isaiah. Linda truly never left his side.

Steve was a great lawyer, husband, father, grandfather and friend to all. He loved his family, soccer, the arts, travel, nature, and many, many other things. Steve and Linda loved playing bridge so much that they both have been lifelong players. They have tremendously enjoyed and loved the people they met and the games they have played. Both Steve and Linda actively supported the bridge club, each of them becoming board members with Steve even taking on the role of Unit President. In addition, Steve was responsible for procuring the Washington School for the Deaf as our Sectional venue.

He was the Game Director of the Thursday morning session before illness overtook him. Steve played bridge online during the COVID shutdown which he did up until five days before his death. He was very happy to be able to exceed his 1,000 masterpoint goal by playing on BBO. Bridge without a doubt has been a major part of Steve's life.

As many know, Steve loved nature and made it his mission to try to protect it. A way in which you could honor Steve would be by bringing a garbage bag to your nearest park, hiking trail, or even a road, and pick up any garbage you see. If after doing so, you kindly would post a picture of the space restored to its natural beauty, it would bring joy to many of us knowing his spirit lives on.
