

VANCOUVER BRIDGE CLUB – PARTNERSHIP POLICY

The policy of the VBC is to attempt to find a partner for those calling in or arriving at least 15 minutes prior to game time. The director will try to arrange partnerships among those who arrive early without a partner. However, the director has the discretion to decline arranging a partnership for a player with whom none of the other available players will play. The director must not plan in advance to play but shall be available to fill in as necessary with new or infrequent unaccompanied players. Players who frequently arrive unaccompanied might not be accommodated and are encouraged to find a partner on their own. A maximum of two players may be called in to avoid a half table and each player called plays at no charge.
